If You Have Dyspepsia, Read This.

The old way of taking pepsin, bismuth, etc., to cure dyspepsia is all wrong. They may be put up in tablets or in liquid, the result is just the same. The object is to create artificial digestion, but this does not make a cure. Stop taking the pepsin, etc., and you have your dyspepsia or indigestion back again and sick headache, it does not cure, stop taking the drugs and the pain and distress return. The only common sense method is to drive out of the system the cause of dyspepsia and sick headache, by cleansing the stomach and bowels, at the same time using a medicine that will act on the liver. This forces through the glands of the stomach the digestive fluid that nature intended. In this way you cure dyspepsia. The medicine that cures dyspepsia by this method is called Dr. Gunn's Improved Liver Pills. Druggists sell these pills at 25c per box. It only takes one pill for a dose. Sold by Stone & Mercer.
